

Accessing and Modifying Folders and Files within the Content Collector/Content Collection in Blackboard Learn/Ultra

The **Content Collector** can be found in the course menu within **Blackboard Learn** course or directly in your **Blackboard Institution** menu when you log in without entering a course. You will need to select **Tools** and proceed to the **Blackboard Tools** options available.

	\rightarrow	Bookmark Items	Email Items	Download Package	Сору	Move	Delete

Just like the **Content Collector** in Blackboard Learn (Original), you have options to download, copy, move, and delete content. Smaller files can also be emailed, but the larger folders and files need to be downloaded.

The square selection box for both folders and files will need to be selected prior to modifying content. **Downloading a package** would allow you to archive any content needing off site security.

Moving back and forth among classes is a simple as selected the path component on the breadcrumb menu.
