Once you have recorded a segment, you will see a player button to review the clip. You will see the **Record Again, Download a Copy,** and **Use This.** Select **Use This** once you have a suitable clip.

Since the clip has been selected, you will need to give the clip an appropriate title and description before embedding it into the assignment. You have the option of public or private viewing. By default, this is set to private. Click **Save** and the video will begin to be processed in the submission window.
