Make learning **fun** and **engaging**

Flip is a free app from Microsoft where educators create safe, online groups for students to express their ideas asynchronously in short video, text, and audio messages.

Get started in minutes!

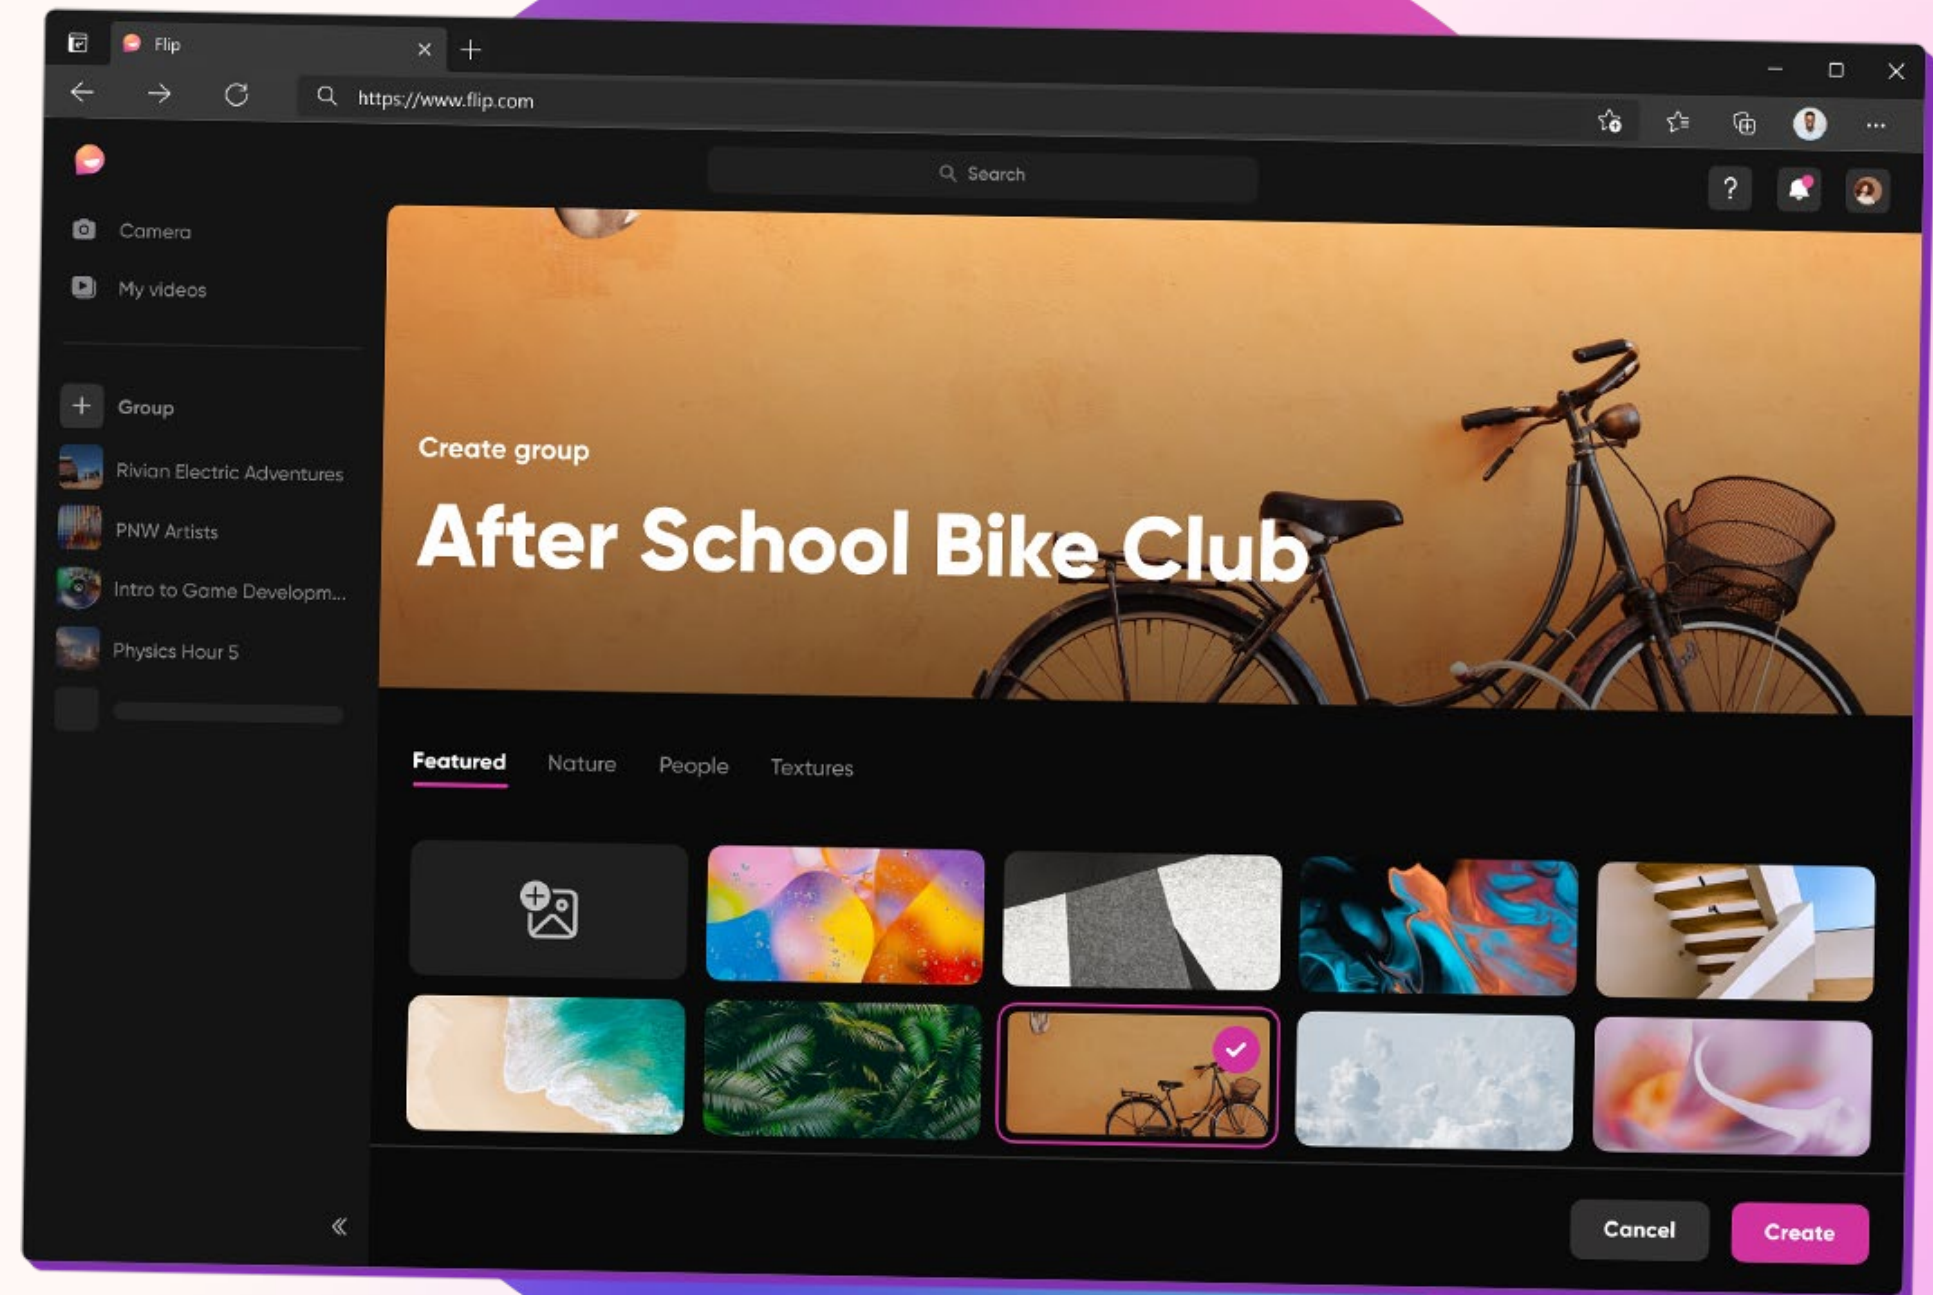

Our mission is to...

**Make learning fun
and empowering for
everyone.**

Step 1: Create a Group!

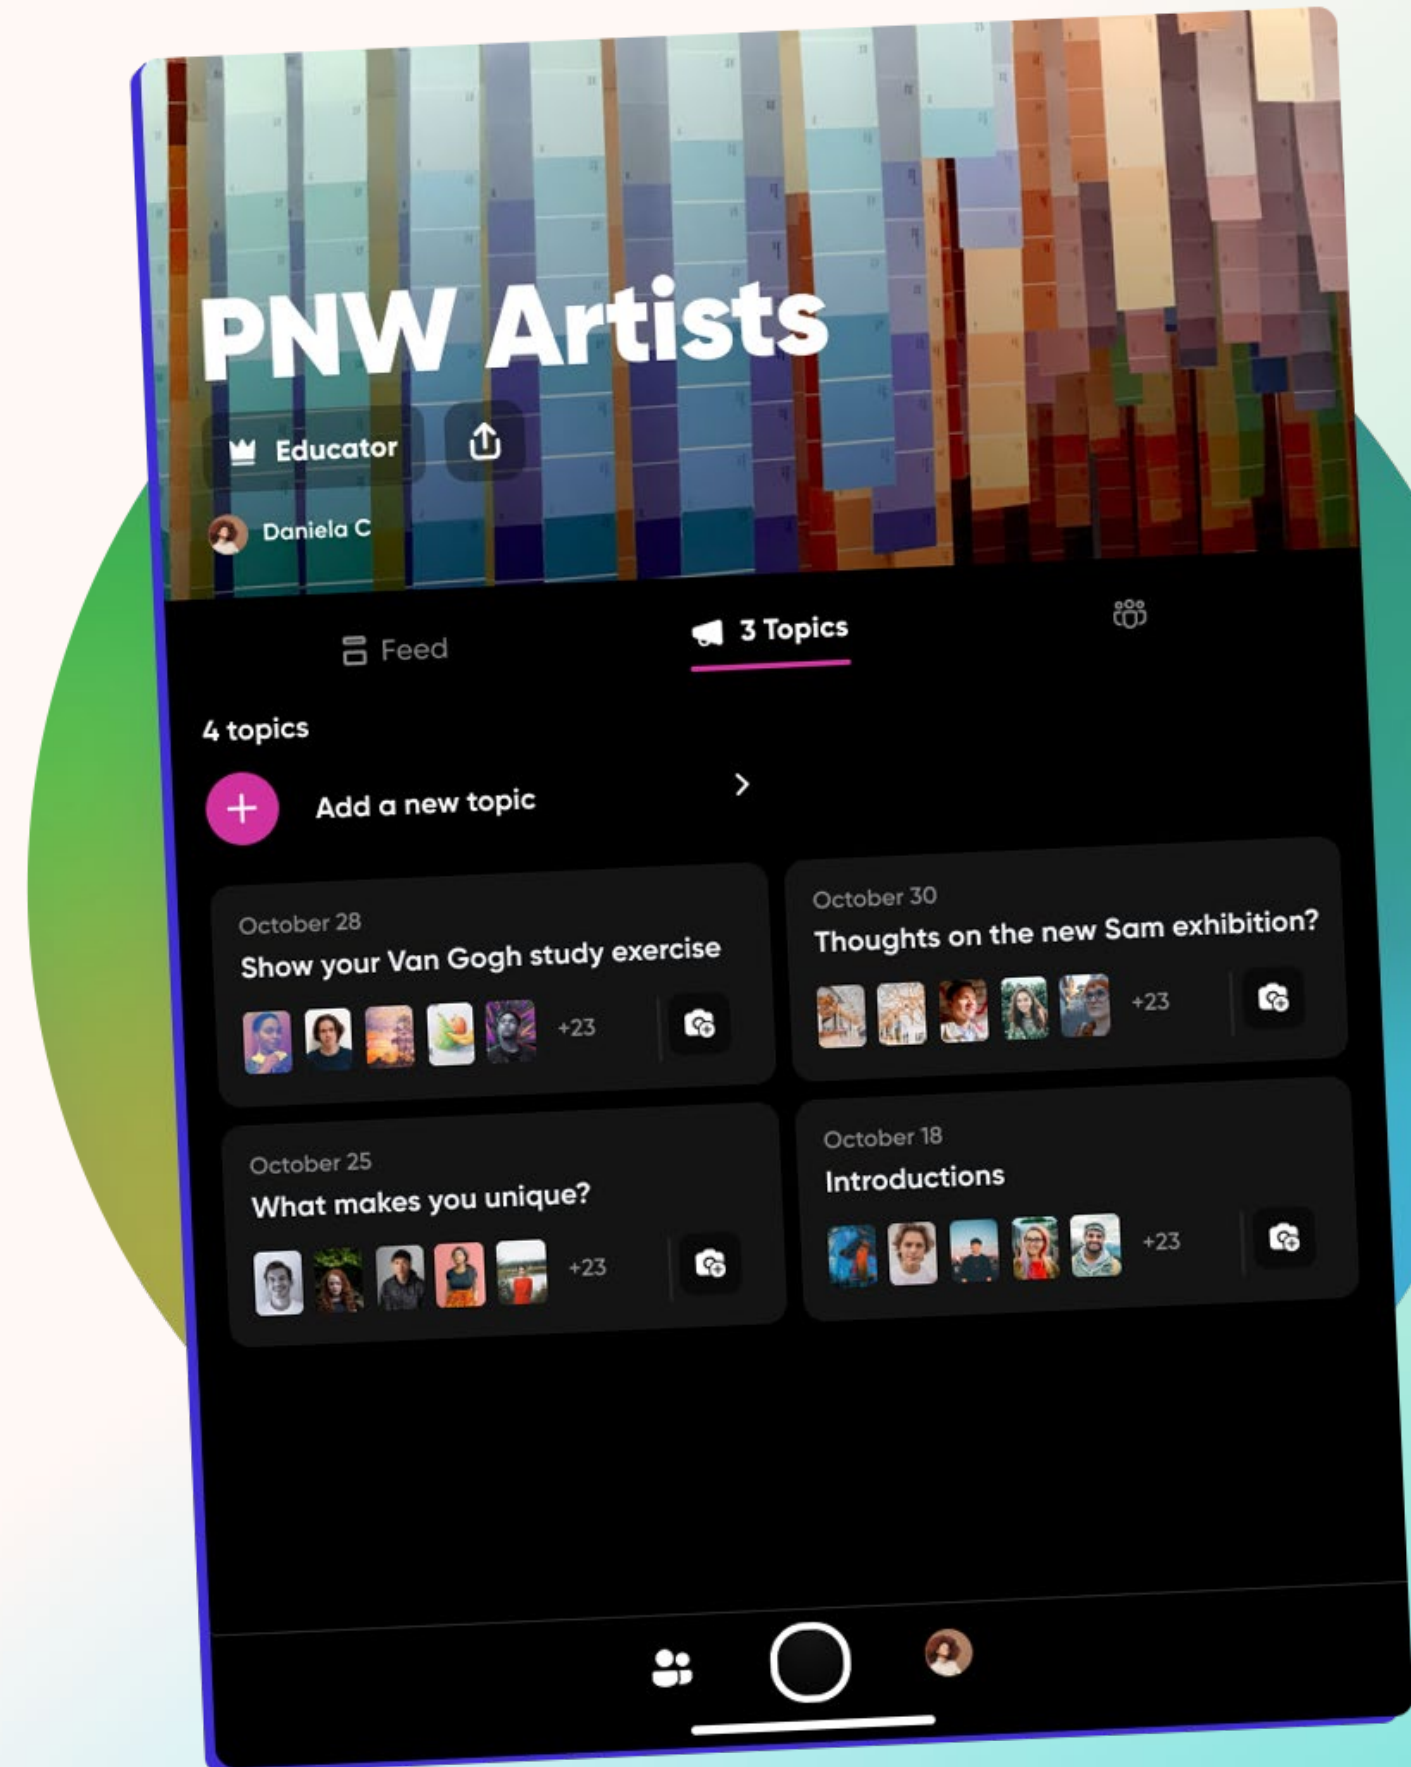

A group is your community – your classroom, school, club, PLC, or even your friends and family. You are in control of who can join. Permit access based on your school's email domain, connecting to Google Classroom, or by uniquely approving individual students.

Step 2:

Spark the discussion by adding a topic!

A question, idea, experiment, debate, or exploration – prompt your community to initiate the conversation. Your community will respond with creative, short videos.

Step 3: Launch the discussion with student creation and engagement!

Your community records and shares videos to learn with and from one another – watching, commenting, and replying to peers.

Create and share today, get responses tomorrow

Topic Copilot is here to help you quickly generate ideas for fostering meaningful discussion with your students.

You can also find enriching, ready-to-use topics from our partners in Discovery.

**Show me discussion prompts
about layers of the earth**
