LiveCarta and Blackboard

Instructor Guide: Adding LiveCarta Materials to a Course

1. Enter your course and navigate to the **Content** area.

2. Hover over the **Build Content** menu.

3. From the dropdown list, locate and select **LiveCarta Digital Materials**.

4. The LiveCarta interface will launch.

5. Use the catalog or dashboard to find the specific book or chapter you wish to add.

6. Click the **Select** or **Add** button next to the material.

7. The link to the material will appear in your course content area.

Students guide: Accessing LiveCarta Materials via LTI Links

Students do not need to manually create accounts if the integration is configured correctly.

1. Log in to your Blackboard course.

2. Navigate to the **Content** area (or wherever your instructor has placed the materials).

3. Click the link for the material (e.g., "Chapter 1: Introduction" or the textbook title).

4. LiveCarta will open in a new window or within the Blackboard interface.

5. **First Time Access:**

   o If you do not have a LiveCarta account, one will be automatically created using your Blackboard email, or you may be prompted to finalize registration.

   o If the material requires purchase, you may need to enter an access code or buy the book. If your university provides a license, access will be granted immediately.
