

Blackboard Course Banners

In January 2026, Blackboard received a visual refresh. All course banners include the course ID and title on a gradient, darker background for better clarity and accessibility. Course banners also appear as course cards on the Courses page and the Course Switcher menu. If you do not add a banner image, the banner will be a dark purple gradient.

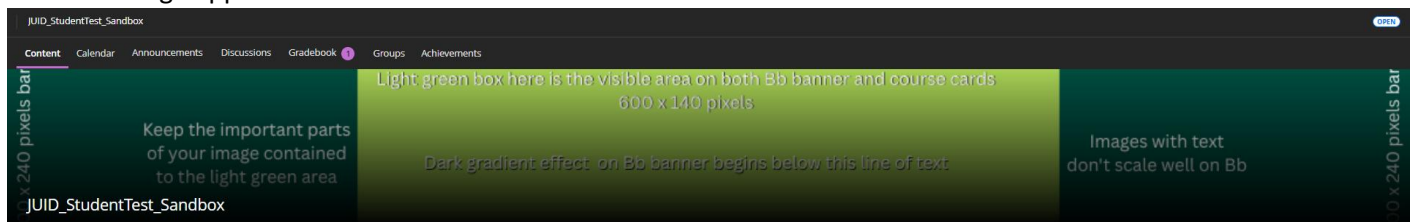

Blackboard banners need to be 1200 x 240 pixels. We recommend keeping the main content of your image within the center, at 600 x 135 pixels, to guarantee its visibility.

You may [download a Canva template](#) of the banner shown below to ensure your course banners fit the recommended dimensions.
