Friday, March 13th	3:30 – 5	CTL	Book Club 3 (Registration Closed)
Monday, March 23rd	3:30 - 4:30	Founders 7	Annual Assessment Workshop
Tuesday, March 31st	3:30 - 4:30	Founders 7	Build Your Own Slide Master in PowerPoint

Five Essential Practices for Student Success in Online Teaching
Wednesday, March 4th 3:30-4:30PM Virtual/CTL

Discover research-backed strategies that separate good online courses from great ones. In this workshop, we will explore five practices proven to enhance student engagement, learning outcomes, and satisfaction in online environments. Whether you're new to online teaching or looking to refine your approach, you'll leave with insights grounded in educational research and real-world success stories. This workshop fulfills the online pedagogy requirement for the Online Teaching Certification

AI Explorer 3
Friday, March 6th 1:30 – 3:00PM
Registration Closed

How to Build an Escape Room
Wednesday, March 11th 12:30 – 1:30PM CTL

Discover how to create educational escape rooms that work in both face-to-face and online classes. This hands-on workshop provides step-by-step instructions for designing your own activities, plus curated resources for puzzle ideas and research-based articles. Leave with practical tools to boost collaboration, critical thinking, and student engagement.

Book Club
Friday, March 13th   3:30 – 5PM
Registration Closed

Annual Assessment Workshop
Monday, March 23rd, 3:30 – 4:30PM Founders 7

This interactive Assessment Workshop guides faculty through crafting clear mission and vision statements, developing intentional long–range & annual goals, and creating measurable student learning outcomes. Attendees will learn how to align these elements to ensure cohesive planning and meaningful assessment practices. The workshop will be used as an active writing session to ask any questions about your program's annual assessment.

Build Your Own Slide Master in PowerPoint
Tuesday, March 31st, 3:30 – 4:30PM Founders 7

Create cleaner, more engaging lecture slides using the PowerPoint Slide Master. All without spending extra time formatting. This hands-on workshop will explore this tool that helps you maintain consistency across your decks, highlight key concepts more effectively, and keep students focused on the learning, not the layout.

We will walk through how Slide Master works, why it's such a time-saver, and how thoughtful design choices can support more engaging, student-centered presentations. You will also build your own customized Slide Master that you can use in future courses.

No advanced PowerPoint experience required.
